

External Quality Assessment Program for

Phosphatidyl ethanol in blood (PEth)

Labquality EQAS by Aurevia is introducing a new EQA scheme for Phosphatidyl ethanol in blood (PEth) by arranging a pilot study free of charge for a limited number of participants. The scheme is suitable for different assays. The EQA samples should be analysed as regular patient samples. Participants submit their results through the electronic platform LabScala, results are processed by the EQA Coordinator and commented by the Scheme Expert in the final report. Participation in the pilot study is free of charge.

2709 Phosphatidyl ethanol in blood (PEth)

Samples: 3 lyophilised whole blood samples

Distribution: October 2025

Registration: Please register by [this link](#) or by scanning this QR code no later than 5 September 2025.
